

Free Your Mind – from Automated Packaging Limitations

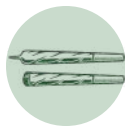

Bringing our 40+ year knowledge and expertise to bear on the cannabis industry over the past decade has culminated in a portfolio of impressive industry-leading clients and a range of cannabis packaging equipment that is at the bleeding edge of cannabis automation.

AUTOMATED PACKAGING SOLUTIONS FOR:

Precision Cones

Our equipment has the flexibility to accommodate a range of cone sizes, shapes and flavors. This together with your branding enables you to provide the best possible pre-roll on the market.

Pre-Rolls

We make the only equipment that can run any type of infused product all day. Ability to run any size cone. 1600 pre rolls / hr. Easy to use, operate and clean. No maintenance required.

Flower

Large buds. Small buds. Run blended, separate or combined. Any size jars & bags, 1250+ jars per hour, +/- 3% accuracy, .001g resolution. Easy to operate, low profile footprint fits any size room.

Edibles

We've been in the food industry since 1977 so edibles are nothing new for us. From cookies to gummies we have solutions for anything edible, no matter the package size or type.

Bulk

Fast and accurate semi- and fully automated systems for bulk containers and 1 lb. bags or higher.

Dry Concentrates

Run kief, shatter, dry crumble and all powders in between. Our laboratory-quality gramming equipment is semi-automated and highly precise.

Whether you're looking for a new solution, or looking to optimize your existing one, ActionPac can help.

Innovative Automated Packaging Solutions for Cannabis Products

“We bought our first Rollmaster420 three years ago and I just bought our second one this year. Working with ActionPac has been the best automation decision we’ve made.”

BRIAN HENDEL – DIRECTOR OF AUTOMATION, MAGGIE’S FARM

ActionPac is an innovative engineering and manufacturing company that does everything in house and is one of a few mechatronics operators globally as well as one of the last remaining true US packaging/automation manufacturers.

NEW! TwistMaster™ Automated Cone Solution

The TWISTMASTER has landed and is the latest addition to our patented ROLLMASTER420 Series. Designed for easy implementation for a seamless transition into an existing line or as the final piece in a new installation.

Micro420 X10HP™ Precision Bud Weighing

The MICRO420 X10HP is the original and only automated weighing system developed exclusively for and with Cannabis., weighing buds of all sizes without sacrificing accuracy or speed

RollMaster420™ Compliant Pre-Roll Production for all product types and environments

The only system available that provides non-stop production for infused cannabis of any strain into any cone in any environment. The ROLLMASTER420 is more than a machine. It’s the solution.

Rad420™ High Volume Flower Packaging

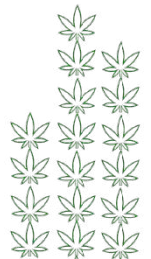

Comes in multiple sizes and resolutions. Best suited for high volume applications of smalls or applications focused on larger retail weights 3.5g-7.0 g and above. A great choice for operators new to automation or those focused on speed over tight tolerances.

OUR FOREVER SUPPORT PROMISE:

If you own ActionPac equipment, we’ll support it, forever. Even if you didn’t buy the machine from us, we’ll help you. Parts are warranted for one year. On site labor is covered for the first 90 days.

ActionPac specializes in complex packaging and end of line systems with an emphasis on precision weighing automation. At our core we are a scale company, weighing is our life and metrology our creed. It’s where we got our start and at the heart of every system: simple, complex, big and small, is our proprietary weighing technology.
